

PeopleSense Time

With decades of experience as part of the NOVAtime Time & Attendance Labor Management sales, implementation, support, and training team, we are headquartered outside of Chicago and serve customers across the United States.

Why Upgrade to the NOVA5000 SaaS Model

Benefits of upgrading to the NOVAtime 5000 SaaS model:

- Cloud vs. On-Premises
 - No backups needed. Don't need to protect the data or maintain an extra server. Software always up-to-date with latest enhancements & updates, plus more.
- Email/Text Notification Options
- FMLA Module
- Express Timesheet, Express Time Distribution
- Advanced Scheduling Module
- Mobile App for Employees and Supervisors (GPS, Geo-Fencing, Beacon Technology)
- Mobile App has much greater functionality, such as, approving time, checking schedules and benefits, Requesting Time-Off, etc.
- Mobile friendly interface even without the Mobile App
- Report Analytics (Graphs)
- Elapsed Time
- Mandatory Sick Module
- SPA Timesheets and new Search Filters
- Branded Login Screens with Company background
- Added Dashboard Gadgets, new employee dashboard
- Expanded Accruals rules
- Limit time-off requests, by day, month, etc.
- Shared Calendar for Employees to see others requesting time-off for the same period of time
- Forecasting hours
- Payroll Bridges
 - New bridges only available in the 5000 SaaS system
- Able to use economical 7000LITE Clocks
- Automatic/timely updates; whereas STARbox updates could take months
- No new releases with STARbox. Final release of STAR Is 12/2018
- Payroll preparation process streamlined (no need to Export > Process)
- Simplifies support process. No longer necessary for technical support to get past your firewall / security to access NOVAtime system
