

Dynamic face recognition TW-VF01

• Product Feature:

- Exquisite Case Appearance in Aluminum Alloy Materials.
- Support Dynamic Face Detection, and Adopting Face Recognition Tracking Algorithm.
- Fast Face Recognition Speed within 0.2s.
- Face recognition in Long distance
- Support LED and Infrared Fill Light at night
- Support Live Movement Detection.

Remote identification

Dynamic face detection

In vivo recognition

Touch screen

5" Capacitive LCD

200W Pixel

Infrared scanning

WiFi BT

Dynamic face recognition

TW-VF01

SPECIFICATIONS

CPU Processor	4 Core 1.2G
RAM	1GB
ROM	8GB
Camera	200W Pixel HD Colorful Camera 100W Infrared Camera
Fill Light	Highlight LED Fill Light Dual Infrared High Power Fill Light
Display Screen	5 inch Electronic Capacity Touch Screen
Screen Resolution	800*480
Communication Method	TCP/IP, USB type-A port,WIFI
FRR	<= 0.1%
FAR	<= 0.001%
Product Size	185mm*110mm*20mm
Power Supply	DC 12V, 2A
Working Temperature	-15°C to 60°C
OS	LINUX System
Language	English and other languages(Customized)
User ID Capacity	10000
Face Capacity	10000
User Record Capacity	2,000,000
Identification Type	Dynamic Face Recognition, Password, Face Recognition& Password
Face Recognition Mode	1:1, 1:N
Identification Display	Person Name & Number
Face Recognition Time	Less than 0.2s
Intelligent Function	Infrared Live Person Identification Detection
Pure dynamic face recognition	0.5-3m
Infrared Live movement detection	0.5-1.5m
Door Sensor	Support
